

Online Team Building Programs

by Invite Japan

Purpose of Online Team Building

Invite Japan's online team building services are designed to maintain the core functions of group performance and meet the challenges of remote/hybrid team structures.

Our online games use the same communication applications and web tools that are now standard for teleworking arrangements.

Using interactive and mentally stimulating puzzle challenges, our programs create a unique space for teams to work together in a virtual environment.

Through our online games, teams are able to build team unity, strengthen individual relationships, and have a great time.

Teams of any size or composition can benefit from online team building.

Even international teams with members based in different countries or on different continents can easily plan an event for everyone to enjoy.

With our online team building program, organizing the logistics of successful event is effortless.

About Our Online Games

Invite Japan has two online games available: 1) Tabitantei Online Adventure 2) Secret Agent: The First Mission

Both games feature interactive storylines and puzzle-based challenges. Teams work together to solve as many puzzles as they can within the time limit.

To solve these challenges and collaborate together, teams use a custom-built web interface with an integrated online whiteboard application called Miro.

Program duration: ~90 minutes

Number of participants: 4~160+

Online Program flow:

- Introduction- initial testing and tech support.
- Mini-game - using the whiteboard application.
- Main game (60 minutes)
- Conclusion - winners and team photo.

Tabitantei Online Adventure

Tabitantei takes participants on a fantastical journey around Japan.

Players act as a team of archaeological detectives, exploring clues from the past and searching for mysterious objects.

They are guided by a mischievous family of ancient clay figurines, who lead players through cities like Sendai, Yokohama, Karuizawa, and Asakusa.

Tabitantei features a classic analog spirit, and is a good fit for teams that are interested in learning new online skills and how to collaborate in virtual environments.

Historic Horsemen

High above the city of Sendai stands a proud statue of the samurai Masamune Date. He ruled over the region at the beginning of the Edo period. His image can be found all over the region, and throughout popular culture. The location of the statue is also notable for its expansive view of the city below.

仙台市の高台に立つ伊達政宗の騎馬像。戦国末期から江戸初期の武将であった政宗は、広大な地を勢力下に置いた。像のある青葉山公園は、仙台の街を一望できる眺めも有名である。

1. Look around the base of Date Masamune's statue. 伊達政宗像の台座をよく観察せよ。
2. Choose the correct images that correspond to each ? to get the final answer. ?に当てはまる正しい画像を選択肢からそれぞれ選び、答えを導け。

Final Answer:

Secret Agent: The First Mission

In Secret Agent: The First Mission, players are transported into a thrilling world of spies and art thieves.

Teams act as members of an international spy agency, tasked with finding the location of a stolen piece of artwork from a famous gallery.

Teams find clues left by fellow agents to follow the trail and retrieve the painting before it's too late...

Secret Agent brings participants into a fully-realized digital world.

Featuring asynchronous puzzles that give each player different pieces of information, Secret Agent encourages teams to improve their online communication and collaboration skills.

System Environment

Tech requirements to participate should generally not be an issue for those who regularly do work online.

System Requirements:

- PC/Mac connected to the internet.
- Browser: Google Chrome (recommended), Microsoft Edge, Safari.
- Conferencing: Zoom App (recommended), Zoom Browser, Microsoft Teams
- Communication: Microphone and webcam

	Minimum	Recommended
CPU	1.5GHz (Single Core)	2.8GHz (Dual Core)
Memory	2GB	4GB
Network Bandwidth	1Mbps	8Mbps
Zoom Application	Use your browser	Install App

In order to ensure that programs run smoothly, we recommend restarting your computer before joining the program and closing any applications that are running in the background.

Online Team Building + Workshop

Adding an Invite Japan Workshop program to your online team building event is a great way to extend and deepen the team building skills learned during the activity. These supplemental programs include a lecture and extra activities based around specific topics or themes.

The topics we currently have available are:

- Team roles (how to think about roles on your team to become more effective)
- Psychological Safety (creating a working environment where team members can thrive)
- Anger Management (how to deal with and process emotions in productive ways)

**If you have other themes or topics you would like your event to focus on, please let us know as early as possible so that we can do our best to accommodate.

Duration: Game + Workshop = 180 minutes total

Price

Event	Plan	Price (tax inclusive)
Online Team Building Tabitantei or Secret Agent: The First Mission	Standard Plan Game Only (90 minutes)	From ¥6,600 per person
	Workshop Plan Game + Workshop (180 minutes)	From ¥13,200 per person
